San Francisco	3787396	554	14.63	12.57
Merced	1167985	110	9.42	12.2
Imperial	754802	57	7.55	8.82
STATE	178302864	31940	17.91	19.17

Note: All rates are per 100,000. Rates are age-adjusted to the 2000 U.S. Standard Million Population.

Created Jul 15, 2009

Veterans Health Administration hospitals did not report cancer cases to the California Cancer Registry (CCR) in 2005 and 2006. Therefore, case counts and incidence rates for adult males in 2005 and 2006 are underestimated and should be interpreted with caution (see www.ccrca.org/publications/VAtchnotes).

Cancer Mortality Rates by County in California

Melanoma of the Skin, 2002-2006
