STATE	11845719	90	0.76	0.96

Note: All rates are per 100,000. Rates are age-adjusted to the 2000 U.S. Standard Million Population.

Created Jul 15, 2009

~ Counts/rates are suppressed if fewer than 15 Cases were reported in the specified category.

^{***}Counts < 15 are too few to calculate a stable age-adjusted rate.

Veterans Health Administration hospitals did not report cancer cases to the California Cancer Registry (CCR) in 2005 and 2006. Therefore, case counts and incidence rates for adult males in 2005 and 2006 are underestimated and should be interpreted with caution (see www.ccrca.org/publications/VAtechnotes).
